President's Office

Mines Vision

We, the Colorado School of Mines community, are united by our commitment to our timeless mission of educating and inspiring students from all backgrounds and advancing knowledge and innovations, with the aspiration that our graduates, ideas, actions and innovations will have a transformative impact on individuals and society, leading to shared prosperity and sustainable use of the Earth's resources.

Mines Mission

For 150+ years, our STEM-focused education and research produces the talent, knowledge and solutions to serve industry and benefit society – all to create a more prosperous future. We're a community of entrepreneurial leaders and resilient problem-solvers who revel in challenges and work together in order to engineer change on Earth and beyond.

Our Core Values

Inquiry and
Innovation

Inspiration

Challenge

Collaboration

Openness

Compassion

Respect

Mines Will Be:

- A producer of differentiated and highly desired STEM-educated leaders
- A leader in educating STEM students and professionals
- A go-to-place for use-inspired research and innovation needed for challenges facing industry and society
- Accessible and attractive to qualified students from all backgrounds
- A great community to learn, explore, live and work
- A preferred partner for talent, solutions and life-long learning
- The exemplar for alumni affinity, visibility and involvement

Mines@150

As Colorado School of Mines celebrated our 150th anniversary in 2024, dynamic and disruptive change was all around us. We worked towards navigating an increasingly competitive higher education landscape, responded to the changing education and innovation needs of industry and society, and did not become complacent with our accomplishments.

MINES@150 was our plan to position Mines for future success. It called for change, but also for staying true to our timeless mission, pillars, and core values. MINES@150 leveraged our size, location, and history, ensured that our graduates would continue to be distinctive and highly valued, placed Mines at the frontiers of STEM education, research, and innovation, and elevated our status among the world's top universities.

Based on identified threats, a self-assessment, and campus discussions, we recognized that to succeed as a mid-sized and uniquely focused university, we focused on several goals.

- Be a top-of-mind and first-choice university for students, public and private partners, and faculty and staff.

- Expand offerings and diversify delivery, particularly for professionally oriented pre- and post-graduate education.
 - Grow the scale and impact of research, focus on thematic strengths, develop a more social research culture, and diversify funding sources.
 - Strengthen affinity for Mines among our students, alumni, and external partners.
 - Be more innovative and entrepreneurial, especially in the use of our resources.
 - Attract private investment to support our key strategic initiatives.
-

Each of the values above facilitates our shared success, and the advancement of MINES and its mission; by our examples and by our encouragement we seek to foster these values throughout our community, and especially among our students, so as to inspire them to pursue excellence in our shared lives of inquiry and innovation.

Mines Pillars

**Focused
public
mission**

**Great people
(students,
faculty, staff,
alumni)**

**Honest
broker of
information**

**Collaborative
pursuits of
use-inspired
innovation
and discovery**

**Connections
and
partnerships,
particularly
with industry
and mission-
oriented
agencies**

**Elite (but not
elitist)
institution**

**Challenging
practical
education
and
professional
preparation**

**Immense
pride**
